23	Before you were born, a group of white men started making up lots of ideas about bodies that weren't true.
25	Because of these ideas, there are unfair rules about bodies that make lots of things harder for fat people, like getting the care they need from doctors.
33	Ableism is a system of power that values able bodies and minds over all others. This system of oppression (like racism and sexism, for example) and is held up by a socially constructed web of ideas about what kind of bodies and minds are normal, excellent, and desirable. ...many of these fatphobic ideas came out of Western Europe around the eighteenth and nineteenth centuries, and were deeply connected to the proliferation of racist and Christian hegemonic ideas in the United States (and globally). ...The "Body Positivity" movement has roots in fat activism and was ignited by BIPOC, queer, trans, and disabled people.
