13	<p>But the woman has two round bumps on her chest. These bumps have a lot of names. Some people call them the bosom (which you say like this: boozum). Other people call them titties, or boobs.</p>

16	<p>The illustration on this page depicts a cartoonish woman sitting in a chair with her breasts and nipples exposed while a baby is facing her left nipple.</p>
17	<p>Look further down, between the legs. Both the man and the woman have a lot of furry hair there.</p> <p>The cartoonish illustration on this page depicts a smaller version of the image described on page 14 with the man and woman standing up holding hands.</p>
18	<p>The illustration below that one depicts a male baby looking downward at his penis as he is sitting. The text under the image reads: It gets bigger as you get bigger.</p>
19	<p>The man loves the woman. So he gives her a kiss. And she gives him a kiss. And they hug each other very tight. And after a while, the man's penis becomes stiff and hard, and much bigger than it usually is. It gets bigger because it has lots of work to do.</p> <p>The cartoonish illustrations on this page depict a smaller version of the image described on page 14 with the man and woman holding hands.</p>

21-22	<p>By this time, the man wants to get as close to the woman as he can, because he's feeling very loving to her. And to get really close the best thing he can do is lie on top of her and put his penis inside her, into her vagina.</p> <p>The illustration on these bottom depicts a nude man and woman lying in bed. 23	<p>Making love.</p> <p>This is a very nice feeling for both the man and the woman. He likes being inside her, and she likes him being inside her. It's called making love, because it all starts with the man and the woman loving each other.</p> <p>It's a difficult feeling to describe, but if you can imagine a gentle tingly sort of tickle that</p>

It's just the same here, except it's a special kind of wriggling.</p> <p>It's easier to understand when you realize that the parts that tickle most are the man's penis and the woman's vagina. So most of the wriggling happens down there.</p>
27	<p>When the man and the woman have been wriggling so hard you think they're both going to pop, they nearly do just that.</p> <p>...At the same time, a spurt of quite thick, sticky stuff comes from the end of the man's penis, and this goes into the woman's vagina.</p>
